- Asbestos Door Removal

**We will beat
any written
quotation!**

At a competitive charge per door set, a Three (3) monthly, Six (6) monthly and a yearly inspection can be carried out. On completion of an inspection, we will provide a detailed report on every fire door in the building. Fire door inspections can only be carried out or supervised by a person acceptable to the regulatory authority as being competent and experienced in the field of Fire Doors and Passive Fire Protection.

To ensure a proper history of each fire door is retained, a logbook will be issued which must be available and maintained on the premises.

MINC Fire Doors offer a complete door maintenance program for inspections, repairs and painting.

We are a fully independent, Australian owned and operated Fire Door Maintenance Company, with no allegiance to any of the "majors" and as such, will be able to provide competitive prices whilst continuing to maintain a professional quality service.

MINC Fire Doors is committed to repeat business, and as such, treat each and every project with total commitment and professionalism.

For any of your fire door requirements, please call **1300 88 6462** or visit our website www.minc.com.au
